

Rain Plan

Floor Folding

Units will be allowed to fold their floor at the end of their performance but must cross the timing line and stay on the exit side of that line during the folding process. This may mean that you will not be able to fold your floor in the manor originally intended. Your patience and understanding will contribute greatly to the flow of the contest.

Equipment, Floor and Prop Storage

Due to limited space we ask that you keep your equipment, floor and props in your own trailer/ vehicle when possible. Limited pre and post performance storage space will be available in the weight room. Please see map available at check-in.

Warm Up

A scheduled warm-up will be available in the small gym located off of the performance gym.
A schedule for warm-up will be available at check-in.
Please be considerate with audio and space when warming up.

Have a GREAT show!
